

CONGRESSMEN QUIT
AT NOON TODAYADJOURNMENT WAS TAKEN
JUST BEFORE DINNER.

President Sent Them Word That He Had Signed All the Appropriation Bills—Closing Hours Were Lively—Two Workshops Ordered Built—The Business Done Yesterday.

Washington, March 4.—Congress adjourned at noon to-day after notice had been given them that the president had signed all appropriation bills.

Washington, March 4.—When the Vice-President's gavel called the senate to order at 2 o'clock yesterday afternoon Mr. Gorman (Md.) called up the pending naval appropriation bill. The amendment was one reducing from three to two the number of new battleships to be built.

Mr. Hansbrough (N. D.) took the floor and argued the United States had nothing to fear from foreign nations in the shape of a warlike attack.

Mr. Gorman said although the present appropriation for these ships was but \$5,000,000, the government would, he said, be obligated for a total debt of \$14,000,000 or \$15,000,000, including the ships and their armament. There was no possibility of paying for these three ships without selling more bonds or using the proceeds of those already sold.

Mr. Lodge (Mass.) argued in favor of the three battleships provided for by the bill.

Mr. Proctor (rep., Vt.) took occasion to say a few words in favor of land defenses as opposed to ships from the point of economy.

Mr. Vilas of Wisconsin said we ought not to go on lavishing millions on these hulks of battleships for the purpose of making a show.

At this point Mr. Cockrell of Missouri presented the conference report on the sundry civil appropriation bill.

Mr. Stewart (Nev.) uttered a warning against the projected monetary conference.

Mr. Wolcott (Colo.) defended the monetary conference amendment as it was reported.

The conference report on the sundry civil appropriation was then concurred in and the naval bill came up again. Arrangement was made to take a vote on the bill prior to 10 o'clock and a recess was taken until 8:30 o'clock.

Mr. Hawley (rep., Conn.) urged the need of being ready for war. There was no knowing when it would come. It was possible any day that some stubborn nation might lay her hands on Hawaii, compelling us to say "Hands off."

At 10 o'clock the vote was taken on the amendment fixing the number of battleships at two instead of three, and it was agreed to—33 to 23, as follows: Yeas—Democrats, 21; Republicans, 9; Populists, 3. Against—Republicans, 18; Democrats, 10; Populists, 1.

The provision striking out twelve torpedo boats and inserting six light draught composite gunboats of about 1,000 tons displacement at \$230,000 was agreed to. Another provision for three torpedo boats, one to be built on the Pacific coast, one on the Mississippi river, and one on the Gulf of Mexico, was also adopted.

A new amendment was adopted permitting the penalties against the builders of the Yorktown, Philadelphia, Baltimore and Newark.

The naval appropriation bill was then passed without division.

Mr. Blackburn presented another conference report on the diplomatic and consular appropriation bill, stating that no agreement had been reached on the Hawaiian cable and no prospect that the house would ever yield. Mr. Blackburn warned the senate that another insistence on the cable might mean an extra session. He moved that the senate recede from the Hawaiian cable amendment.

Mr. Blackburn's motion to recede on the cable item was then put to a vote and carried without a division. The conference report on the diplomatic and consular bill was then agreed to.

The senate then went into executive session.

SILVER SPEECHES IN THE HOUSE.

Members Bitterly Oppose the Senate Proposal for a Conference.

Washington, March 4.—When the speaker took the chair at 2 o'clock yesterday more than half the members were in their seats. Little was done in the afternoon and there were but few members present when the house met after recess at 7:30. The conference report on the sundry civil bill was called up by Mr. Sayers. When the proposition for an international monetary conference (to which the house conferees had acceded) was reached the silver men demanded time.

Mr. Sibley said what the United States should do is to act, not consult, and expressed the opinion that a monetary conference would simply postpone the day when silver could go to the mint for free coinage on the same terms with gold.

Mr. Simpson said the proposition for a conference was the same old game, twice played on the people, of holding out a promise that would never be realized.

Mr. Pence in a ringing speech argued that no good could come from a monetary commission.

Mr. Springer called Mr. Pence's attention to the fact that this proposition for a conference had emanated from the silver men in the senate, not from the gold men.

Mr. Hepburn (rep., Iowa) favored the proposition for a conference.

By a neat parliamentary maneuver Mr. Cannon got the floor at this point and yielded his time to Mr. Sayers, who immediately cut off debate by demanding the previous question. The conference report was adopted, and the sundry civil bill was out of the way so far as the house was concerned.

At 10 p. m. Mr. Holman presented the final report on the Indian appropriation bill. It showed that the senate had yielded to the house on the pro-

vision for the extinction of the contract school system at the end of five years, so as to remove the time limit, and the house had yielded to the senate amendment for the purchase from the Ogden Land company the title of the lands within the Cattaraugus and Allegany Indian reservations to the extent of authorizing the secretary of the interior to examine into the report to congress without appropriating any money. The report was agreed to.

Report on the Dismissal of Veterans.

Washington, March 4.—Secretary Carlisle has replied to the resolution of the house requesting the names of the soldiers of the late war discharged from the public service in the treasury department since March 4, 1893, and the cause in each case of dismissal. The secretary says all changes made were for the good of the department, and questions the right of the house to demand the reason of appointments or removals.

MONEY APPROPRIATED.

Figures on the Cash Carried by all the Measures.

Washington, March 4.—The following figures show approximately the total appropriations made during the present session of congress: Agricultural, \$3,303,700; army, \$23,252,608; diplomatic and consular, \$1,575,073; District of Columbia, \$5,916,533; fortifications, 1,904,557; Indian, \$9,976,948; military academy, \$424,261; pensions, \$141,391,570; postoffice, \$89,545,997; general deficiency, \$8,600,000; sundry civil, \$47,140,000; urgent deficiency bills passed early in the session, \$2,357,321; legislative executive, and judicial, \$21,900,000; naval, \$29,100,000; permanent annual, \$113,073,956; miscellaneous, \$50,000. Total, \$497,994,604.

These figures are exact, except in the cases of general deficiency, sundry civil, legislative, executive, and judicial, naval, and miscellaneous, and these are close to the exact amounts except possibly on the general deficiency bill and miscellaneous.

TWO MEN KILLED.

National Tube Works the Scene of a Disastrous Accident.

Pittsburg, Pa., March 4.—By the explosion of a tank of sulphuric acid at McKeesport yesterday two men were instantly killed and two injured. The killed are:

MORGAN, W. H.
NILL, WILLIAM.
The injured:
Lavette, William.
Sovereltch, Mike.

The three first named were employees of the National tube works and were engaged in transferring a carload of sulphuric acid to a tank inside the works. Suddenly the tank exploded and the men were hurled many feet. Nill was terribly mangled and died instantly. Morgan had his neck broken. Lavette was thrown twenty feet and seriously injured.

The head of the tank weighing 2,000 pounds, was blown through the roof of the works and alighted on the roof of a Hungarian boarding house near by. Sovereltch was sleeping in an upstairs room and when the huge piece of metal crashed through the roof a piece of plaster struck him on the head, inflicting a deep wound. No cause for the explosion is assigned.

ATTEMPTED TRAIN ROBBERY.

Two Masked Men Routed by an Engineer in California.

Sacramento, Cal., March 4.—Train No. 3 was held up near Antelope Station at 10 o'clock yesterday morning by two masked men dressed in long ulsters. They climbed over the tender into the cab, and before the engineer or fireman were aware of their presence they had the trainmen covered with their revolvers and ordered the engineer to stop. One of the highwaymen kept the engineer under guard while the other took the fireman to the baggage car and there compelled him to uncouple it from the train. He returned to the cab with the fireman and ordered the engineer to go ahead. After running a short distance the engineer was ordered to stop, but as he slowed up the fireman, grappled with one of the men, who laid him low with a blow from his revolver. The engineer attempted to hit his man with a wrench, but he jumped to the ground and with his companion escaped into the woods. The engine with the baggage car, untouched, backed down to the train and then proceeded to Antelope and word was wired here.

HEAVY LOSS IN SALINA FIRE.

Total in the Burned District Will Be \$300,000.

Salina, Kan., March 4.—The total loss by the fire yesterday will reach \$300,000. The firms whose places of business were destroyed are: E. W. Ober, general merchandise; J. Duncan and E. R. Holmes, real estate; Burch & Burch, attorneys; J. W. Cameron, dentist; the printing plants of the Daily Republican Journal and the Weekly Herald, the Irrigation Farmer; S. S. Tohey, boots and shoes; Vernon Bros. palace bakery; W. H. McDowell, and Mrs. Plumley, millinery.

Ice Cakes Crunch Against Houses.

Port Deposit, Md., March 4.—The water is a foot deep on the main street and great cakes of ice are crunching up against the houses and demolishing the fishermen's quarters on the river shore. The railroad depot and the lower part of the M. E. church are under water, and the Jacob Tome training school is also partly submerged. The Columbia railway tracks are in danger of being washed away, and the fishermen and colored people living in the little frame shanties on the shore have vacated their houses.

Girl Arrested for Burning Barns.

Terre Haute, Ind., March 4.—The police yesterday arrested a girl, 13 years, for burning barns. She was taken from the Orphans' home six years ago by Mrs. Morgan, a widow living in the country. A year ago the barn was burned. Yesterday a new one was destroyed by fire, and within three hours the farm residence was three times set on fire. The girl denied her guilt, but after the police brought her to the city she confessed. She said her schoolmates had told her she was badly treated.

British Steamer Venetian Lost.

Boston, Mass., March 4.—The British steamer Venetian of the Furness line, Capt. Farrington, from Boston to Liverpool, which struck on "Lower Middle" ledge Saturday afternoon, broke its back about 8 o'clock yesterday morning and is a total wreck. Two of the crew were badly burned by the bursting of a steam pipe as a result of the force of the blow when the steamer struck, and twenty-one head of cattle and a number of sheep were scalded to death in the same way. The financial loss is estimated at over \$500,000.

HAD CLOSE CALLS
IN BLAZING HOUSESTHREE SHEBOYGAN FAMILIES
LOSE THEIR ALL.

Nothing Was Saved in Any of the Residences and the People Were Lucky to Get Out in Their Night Clothes—Serious Fires At Other Places.

Sheboygan, March, 4.—Three dwellings owned by Loosing Brothers burned last night. The inmates barely escaped alive and the furniture and household goods were all destroyed. The fire was incendiary and the loss will reach \$3000.

Toronto, Ont., March 4.—A fire which began early yesterday morning in Robt. Simpson's six-story dry goods store caused a total loss of \$1,000,000. The department was unable to cope with it. The pressure from the mains was insufficient to throw the water high enough or in sufficient quantities to check the raging furnace. The heat was so intense the firemen were in deadly peril.

Fanned by a light breeze from the southwest the fire was driven across Queen street to the north side, and Jamieson's large tailoring establishment was soon a victim. The flames extended to the portion of Eaton's dry goods establishment, a departmental store facing on Queen street. By the exertions of the firemen, aided by a private hose in the establishment, the flames were prevented from entering the main building. From Jamieson's the fire extended north to Sulliff's dry goods store and burned it to the ground. Meanwhile the intense heat from Simpson's building set fire to the Imperial bank on the opposite side of the street, but only the top flat was destroyed, the bank itself escaping.

Milne's hardware store, next south of the Imperial building, was soon in flames, and Henderson's auction room was next burned, while Duffield's tailoring establishment and the Black Horse Hotel were destroyed. The progress of the fire further south on this street was checked. Next to Simpson's on the south, Wanless' jewelry store was destroyed, and on the west of Simpson's, on Queen street, the flames communicated with Knox church, one of the oldest Presbyterian churches in the city, and the spire was destroyed, falling with a crash. The main body of the church was only slightly damaged.

At 3 o'clock the fire was at its worst. The north and east sides of Simpson's store had fallen, and the flames mounted high, carrying burning brands into the air, which fell upon the roofs of the adjoining houses. Meanwhile the buildings on Yonge street, north of Queen, were burning fiercely. The fire was raging on the east side of Yonge south of Queen.

The watchman's in Simpson's said he made his rounds as usual. He was in the packing room about 12 and all was right, but upon his return in half an hour, there was a huge bonfire of the empty packing cases and other inflammable material, with the flames darting up the shaft. An incendiary origin of the fire is more than suspected. The following are the estimated losses and insurance: R. Sampson, loss \$350,000, insurance \$300,000; J. Wanless, loss \$42,000, insurance \$41,000; Jamieson, loss \$25,000, fully insured; Sutcliffe, loss \$90,000, insurance, \$74,000; Milne & Co., loss \$20,000, insurance \$20,000; Tremont hotel, loss \$50,000, insurance \$5,000; Knox church, loss \$50,000, insurance \$20,000.

In addition to this there are large unascertained losses caused by smoke and water, destruction of street car tracks, and the tearing down of trolley and electric light wires, roughly estimated at \$500,000, making a total loss of \$1,000,000, with insurance of \$47,000.

Three firemen were seriously injured during the fire and had to be taken to the hospital. R. Simpson effected an extra insurance Saturday morning on his stock for \$35,000.

WHAT MANSFIELD DID SAY.

Told a St. Louis Audience that He Returned Its Lack of Appreciation.

St. Louis, Mo., March 4.—Actor Richard Mansfield, now playing at the Hagan theater, was loudly eulogized Thursday night when the curtain fell on a death scene. He failed to respond and the audience became boisterous. The actor, red with anger, then walked before the curtain and said:

"If you insist on raising the dead you must not grumble at the remarks of the corpse. The size of this audience, which is not up to that of a one-night Texas stand, argues that I am not appreciated in St. Louis. I am not a hypocrite, and will say bluntly that I return the want of appreciation with interest."

Mr. Mansfield then bowed himself off the stage in time to escape the storm of indignation when the audience recovered from astonishment. The actor lost money here several years ago, which embittered him against the city, and he says this will be his last visit here.

Says England Is for Silver.

Washington, D. C., March 4.—Sir Charles Hunter, an English baronet, has been an interested spectator of the senate proceedings for several days. He has taken especial interest in the financial debates and in conversations has assured the senators whom he has met that this apparent growth of sentiment in England in favor of bimetalism is real. He says the English people are rapidly reaching the conclusion that the volume of gold is not sufficient alone to constitute the entire circulating medium of the world.

Shipping Oranges to Florida.

Pomona, Cal., March 4.—"This is a literal illustration of 'sending coals to Newcastle,'" said Manager Collins of the San Antonio fruit exchange of Pomona, in reference to the carload of southern oranges that was started for St. Augustine, Fla. The recent freeze in Florida has caused an orange famine and the hotel keepers and others there who have thousands of tourists from the north demand the golden fruit for their guests.

To Revolutionize Prairie Farming.

St. Paul, Minn., March 4.—An invention that promises to revolutionize prairie farming has been brought to a successful issue here. The contrivance combines a plow, seeder, harrow, roller, and reaper, all of which can be worked conjointly or separately. Steam is the motive power and the machine is comparatively light.

Flood Causes Loss.

Pittsburg, Pa., March 4.—The rise of the Allegheny river caused the ice gorge at Ford City to break yesterday. The Ford City glass works were flooded and a row of fifty tenement houses occupied by operatives were inundated. The Allegheny Valley railroad has a trainload of pig iron on its bridge at Mahoning to keep it from being swept away. The gorge at Kittanning still holds, though it is expected to go out at any moment. For thirty miles above that place it is frozen to the bottom. The people of Kittanning are moving to places of safety, and guards are kept to warn the residents should a flood occur.

BELOIT STRIKERS
FEEL ENCOURAGEDCOMMITTEE RETURN FROM
THEIR CHICAGO TRIP.

Five Hundred Men Meet Them At the Depot and Escorted Them Home—Some High Salaried Heads of Departments May Have to Go—Expect to Work Tomorrow.

Beloit, March, 4.—About five hundred workmen escorted the committee of strikers, who were in Chicago conferring with Messrs. Fairbank & Morse in regard to a settlement of the strike, from the depot to a hall upon their return Saturday night. The men were jubilant over the removal of Superintendent Probert and expected the committee to bring them more good news. The committee asked until 10 o'clock to-day to make their report and they urged the men to stand firm, intimating that they had good news for them. Men gathered from the talk that they would be ordered to return to work to-day.

I am intimidated by knowing ones that the firm is carrying too many big salaried men and that several heads of departments will come off when the shops start up.

FAIR NOT CONSISTENT.

While Fighting One Trust He Actually Created Another.

San Francisco, Cal., March 4.—Charles L. Fair is a millionaire in fact. To acquire this capital he has disposed of all his interest in his mother's estate, which now belongs wholly to his sisters, Mrs. Oelrichs and Miss Virginia Fair. In exchange for his surrender he received \$1,500,000 in cash and securities and satisfactory covenants from his two sisters for a similar amount, payable in April, 1897. The first half million was paid \$100,000 cash and the balance in productive gilt-edged securities. It was after this agreement had been reached that Fair's attorneys dismissed the suit which tied up his mother's estate. It was at the instigation of his father that the estate of Mrs. Fair was tied up and that Charles Fair voluntarily relinquished his monthly allowance of \$1,000 from that source. Finally the suit was dismissed and an arrangement was made which was mutually satisfactory. Charles needed money and got it. Mrs. Oelrichs came immediately into \$1,500,000 and Miss Fair will have an equal fortune when she is 25—in 1900. They will have absolute joint ownership of Mrs. Fair's estate, which is constantly increasing from its original value of \$4,000,000. A peculiar feature developed is the inconsistency of the late Senator Fair. While he was counseling Charles and expressing his disapproval of trusts and of "strangers and irresponsible people being given such power to handle other people's money," he continually admonished his son to manage his own inheritance. The first money paid by James G. Fair to Charles to break the trust created by Mrs. Fair's will was given Sept. 19, 1894. One week later the ex-senator made his own will, creating a trust, "confided to strangers," against which he inveighed so vigorously and for the legal destruction of which he was even then advancing money and continued to do so to the end of his days.

ALL TELEPHONES FREE

U. S. Supreme Court Knocks The
Monopoly Into a Cocked Hat.

Washington, March 4.—The U. S. supreme court has knocked into a cocked hat the Bate Refrigerator case. This also knocks out the Quad and Berliner patents and throws all telephones free to the world. The supreme court holds that patents expire in this country with the expiration in foreign countries. The company hoped to perpetuate their patents by having the Berliner patent extended. It laid in the patent office since 1878.

GOULD GOLD WEDDED

Ceremony Was Performed at New York at Noon.

New York, March 4.—Miss Anna Gould and the Count De Castellane were married at high noon today, not less than one hundred people being present.

THE NEWS FROM OVER THE SEA.

Columbian Insurgents Captured Cacuata Wreck Victims at City of Mexico.

Panama, Columbia, March 4.—Advices received here from Cucuta confirm the reports of a government defeat and the recapture of the city by the rebel forces. The rebel battalion was defeated by the government troops from Bucaramanga Feb. 14 and were driven from Cucuta after a brave resistance. The rebel forces were, however, reformed and the battle renewed the next day. The fight began at daylight and lasted until 2 o'clock in the afternoon. More than 800 were killed on both sides. The streets of the city were strewn with the bodies of the killed. The powder magazine was blown up and many houses in the city were shattered. The government forces fled in disorder toward Gramalote. Among the killed was the rebel Gen. Cuato.

PROCESSIONS OF WOUNDED.

Bruised Victims of the Wreck Arriving at the City of Mexico.

City of Mexico, March 5.—Many bruised and wounded passengers continue to arrive in this city from the wreck on the Inter-Oceanic railroad. Some were brought in on the relief train, but hundreds of those able to walk made the attempt to reach shelter in the surrounding villages and strung out on the way to this city in a pitiable procession. Just what the mortality is it is impossible as yet to say. More bodies will be found in secluded spots in the vicinity of the wreck. Many thinking they were strong enough to walk to the city sank down, and a few have been found dead where they fell.

The Universal makes serious charges against Nuffer, the American engineer, who is held by many to be responsible for the accident. Nuffer is now in prison and will probably receive a long sentence unless later developments throw a different light on the affair and materially change public sentiment.

They Ask for an Unlimited Credit.

London, March 4.—A dispatch from Madrid says it is possible that Marshal Martinez de Campos will shortly succeed Gen. Calej as Governor-General of Cuba. The council of the ministers has decided to ask Cortes for an unlimited credit, to be used in suppressing the revolt in Cuba. The Cuban treasury will be called upon to reimburse the government. The latest telegrams report that the troops in the province of Santiago de Cuba have routed 300 insurgents at Veguitas, killing eleven and capturing many.

Refuses to Ratify the Agreement.

Buenos Ayres, Argentina, March 4.—Word comes from Rio that the French government refuses to ratify the agreement made with Brazil for the settlement of the claims growing out of the recent revolution. France insists on additional indemnity for the families of her citizens who were killed, and punishment of Admiral Goncalvez. The demands for the punishment of Admiral Goncalvez will probably embarrass the government.

Japanese Occupy Whole District.

Hiroshima, March 4.—Official dispatches received here say that Feb. 28 the Japanese completed the occupation of the whole district of Sai Yen Tai as far as Ta Fu Kon. The Chinese retreated slowly north after one encounter, in which the Japanese lost ninety-eight killed or wounded and the Chinese forty-five killed. On the same morning a Chinese attack on the Japanese line at Hai Cheng was easily repulsed.

Boiler Explosion Kills Twelve Men.

Vienna, March 4.—A boiler in a distillery at Itzkany, Roumania, exploded yesterday, doing great damage to the building and causing the loss of twelve lives. One workman who was sleeping in a room above the boiler fell into a tank of spirits and was literally boiled to death. A number of working men were injured.

Declares It Is Due to Irritation.

Paris, March 4.—La France declares that the attitude of the United States in the San Domingo affair is due to irritation with Baron de Courcel, who was president of the Bering sea tribunal of arbitration, in consequence of the revelations made during the sittings of the tribunal.

Rosebery on the Way to Recovery.

London, March 4.—Prime Minister Rosebery, who has been suffering from influenza, is now convalescent.

SHOT AND BEATEN
BY TWO THIEVESCHIPPEWA FALLS MERCHANT
NEARLY KILLED.

Two Strangers Bought a Gun of Him and When He Turned His Back, Sent a Bullet Into His Thigh, Pounded Him Brutally, and Escaped With \$100.

Chippewa Falls, Wis., March 4.—A bold robbery and probably a murder was committed at Chippewa Falls this morning. Two strangers entered the store of E. Moses and bought a revolver. While Moses was making change one of the robbers shot him in the thigh. Then both of them jumped on the wounded man and pounded him into insensibility. After they had beaten him they robbed the store, taking \$100 and made their escape leaving no trace of their identity. Moses is in a critical condition.

THE WEEK AT SPRINGFIELD.

Some of the More Important Measures to Be Considered.

Springfield, Ill., March 4.—The Jones bill as amended will probably be passed by a good majority early this week. Mr. Kaiser's bill to prevent minors under 14 years of age from carrying deadly weapons comes up once more Wednesday, but as it is said to infringe constitutional rights it will probably not pass. The bills prohibiting the manufacture and sale of cigarettes are still in the hands of the committee on judiciary, and Wednesday the house committee on manufactures will consider the baking powder and vinegar bills. Mr. McLaughlin's bill to prohibit the use of explosive oils in coal mines has reached the order of third reading in the house, and will be put upon its passage some time during the week. Several other measures affecting the coal miners will come up on second reading. Altogether there are forty-one house bills on second reading in the house.

The senate will be engaged with a number of legislative measures of great importance this week and it is likely an unusually large number of new bills will be introduced.

The bill revising the revenue laws contains a complete revision of the revenue laws of the state. There will be several days' debate upon it before it is reported to the senate and house. Senator Craig's bill providing for the establishment of the Eastern Illinois Normal School, and appropriating \$100,000 for the purpose, will be considered this week. The committee on manufactures will, Wednesday, consider the anti-cigarette bills. It is understood the committee proposes to combine all these bills into one and the provisions thereof will be radically modified.

AT A PISTOL POINT.

Bank Assignee Robbed by the Former Owner of the Securities.

Lewiston, Ill., March 4.—Another sensational feature growing out of the failure of the banking firm of Turner, Phelps & Co. a year ago took place here at a late hour yesterday afternoon. Thomas A. Brown, a prominent farmer residing six miles south of this city, walked into the office of the assignees of the defunct bank and asked to see fifty-six certificates of stock of \$100 each in the Duplex Scale Lumber and Coal company of this city. Mr. Stewart, who is one of the assignees, took them from the safe. Mr. Brown jerked them from his hands, drew a revolver, and backed out of the room, keeping both of the assignees at bay with the gun until he was out of the room. This stock was formerly owned by Brown, but he had left it with the defunct bank as collateral for a \$5,000 overdraft, and, with the failure of the bank, it fell into the hands of the assignees. Mr. Brown failing to make good his overdraft, it became part of the assets of the defunct banking institution. J. M. Stewart, the assignee from whom this stock was so boldly taken, is a man of the highest standing and character. He has been sheriff of Fulton county and also has been county treasurer. The stock has not been recovered from Brown.

Rescued from a Leaking Hull.

New York, March 4.—The Wilson steamer Colorado, which reached port to-day from Hull, England, brought the captain and crew of ten men of the German bark Norma, picked up in latitude 24, longitude 23. The Norma, which was an old vessel, was loaded with dye-woods, from Buenos Ayres for Antwerp. On Feb. 15 she encountered a heavy storm, which caused her to leak badly. When the Colorado came in sight the water had made such a gain in her hold that she was about to sink.

Complaints of Misrepresentation.

London, March 4.—Sir William White-way, prime minister of Newfoundland, has cabled a letter to the Times complaining of the misrepresentations in regard to Newfoundland's finances made in the English press. He declares that the decline in the revenues in January and February was attributable to causes other than the financial crisis, such as reduced purchasing power, owing to the limitation of the markets for exports.

MONROE STIRRED UP OVER "THAT SUIT"

THE SPAULDING CLAIM CAUSES MUCH CONCERN.

The Property In Which She Claims a Dower Interest is Valued at \$1,000,000 and While Some Make Light of The Matter Others Say It Is Of Great Importance.

Monroe people are greatly worked up over the suit begun by Henry S. Sloan and Charles E. Pierce in behalf of Eliza J. Spaulding. She lays claim to a dower interest in the whole Tallman plat and lots 11 to 25 in Lybrand, which includes the new Karlen block, and lot 8 in New Mexico additions of that city, the whole including about 290 lots of the city's most desirable property and taking up most of the first ward.

"After an lapse of nearly fifty years it has occurred to her that as the widow of Daniel A. Richardson, she never signed over her dower interest in the property that her husband died seized." Says the Evening Times: "She is well satisfied that her claim can be established, and has employed Henry S. Sloan and Charles E. Pierce, of Janesville, to push the case. With this view notices have been served on property owners in Tallman's second plat, to the number of forty or fifty, involving one hundred and fifty lots. It is their intention to make this a test case, and it will be called in the April term of the Rock county circuit court. The suit has been instituted by the notices served presenting her claims to a one-third interest. Besides this one-third of the rents, issues and profits from the date the notice is served until the recovery of possession of interest, is also demanded.

Property Worth \$1,000,000.

"Richardson died Feb. 14, 1890, possessed of extensive real estate interests but under heavy indebtedness. In the green county probate court the property now in litigation was ordered sold, and was purchased by George Dexter, who in turn sold it to Mr. Tallman, and it became known as the Tallman addition of the city of Monroe. It is alleged that the property was sold subject to the dower, and the fact that it was never signed over by his widow loans an intricate point that the courts will be called upon to decide. The property is of great value, estimated at no less than \$1,000,000, and the case promises to be of vast importance.

"It is claimed that this case does not come under the law that provides that twenty years possession of a piece of land entitles the occupant to ownership, for the fact that it is a dower claim. If the plaintiff is successful in the test case the other cases will be taken up and it may be many years before the matter will be definitely settled. However, it is causing property owners no little concern."

\$1 A MINUTE TO BE SQUIRTED ON Novel Proposition In Regard To Supposedly Frozen Lake Geneva Hydrants.

Lake Geneva people became alarmed for fear some of their fire hydrants were frozen up and the water company in their advertising space of the Herald made the proposition to pay anyone five dollars to stand five minutes in front of the nozzle on the hose attached to any hydrant that was believed to be frozen. "Come on boys and get in line and take your medicine or else give us a rest on frozen hydrants" is the sentence that closes the advertisement.

CLARENCE BURDICK WAS PRAISED For Atkinson People Were Much Pleased With His Acting.

Clarence Burdick whose stage name is Earl Doty is now playing at Fort Atkinson with his company. The Fort Atkinson Union says: "Monday night they produced Davy Crockett. Mr. Doty appeared in the title role and did full justice to the part. Wednesday night Irving's dramatization of Goethe's 'Immortal Faust.' This is the finest piece we have ever seen in our opera house. Earl Doty, as Mephisto, was excellent."

THE TOWN TALES OF DAY.

A ME social with program will be given in the Congregational Sunday school rooms Friday evening of this week, the proceeds of which will be given to the Y. M. C. A. An entertaining program has been prepared and American pies will be served in Bohemian style.

EVERYTHING we have is new; a cleaner dry goods stock was never before known. We bought for spot cash and made 20 per cent on every purchase. We'll save you this 20 per cent if you'll let us do it. Bort, Bailey & Co.

ONE merchant in a prominent location was noticed footing up his day's sales a few days and they amounted to \$13 and a few cents. He put the few cents in his pocket to spend. You can bet this fellow don't advertise.

JACOBS STOLE \$200 AND IS NOW IN JAIL

BELOIT SALOON WAS ROBBED OF A LARGE AMOUNT.

Money That Had Been Hidden Saturday Night Was Easily Found By The Thief Who Confessed and Told Where He Secreted It—"Jim" Hess Jailed.

Hans Jacobs, a Beloit moulder, is now quartered at the Janesville jail, charged with stealing \$200 from Kline Brothers, the saloonists. He confessed the crime and said that he was not alone in it but refused to tell anything further.

It was at an early hour Sunday morning Kline Brothers discovered that their saloon had been robbed. They had taken the night previous and secreted it in another part of the building. Marshal Appleby was notified and on searching the premises found an ax that had been used to batter open the back door. Jacob had helped scrub out Saturday night and was at once suspected of the theft. The marshal shouldered the ax and started for the suspected man's home. On nearing the house he was accosted by a neighbor, a Mr. Pettit, who wanted to know what the marshal was doing with his ax, saying that Jacobs had just given him \$10 for the use of the ax which he borrowed the night previous and said he had lost. Jacobs was arrested and admitted his guilt, and conducted the marshal to Bailey's elevator where the money was found hidden near the top of the building. Jacobs insisted that he was not alone in the robbery but refused to divulge the name of his accomplice. There is a clear case against him and he will probably get a term at Waupun.

James Hess, alias "Wisconsin Tommy" has been under arrest at Sparta charged with breaking a safe and stealing \$2,000 in gold.

Hess used to live in Janesville and is well known to the police. He is a brother of the notorious "Jack" Hess who broke jail several times. For the past two or three years he has been making Beloit and the resorts just over the line his headquarters. The Beloit officers have noticed that he would be gone a day or two at a time and invariably the report of a robbery somewhere followed his absence. Some days ago a safe in a store at Sparta was blown open and \$2,000 in gold taken and Hess and another man were arrested for the crime. They were seen about the streets before the safe was blown, and afterward both got drunk. The money was "planted" for future use and was recovered by the police. It is said that the case against Hess is not a strong one as they put him in jail instead of watching the "plant" and arresting the men when they come to get the money. Had they taken the latter course the evidence would have been very strong, but as it is the officers hardly think that they can hold them for trial.

WEAR TROUSERS.

The Costumes of Milkmaids in Prussian Dairies.

The maids in the great Elbing dairies in West Prussia have taken to wearing trousers. This establishment is the largest in that country, and employs nearly 300 milkers, all of whom are females. For years the management has been experimenting with different kinds of costumes for the women, trying to design one that was warm, useful and becoming at the same time.

The skirts, were they long or short, full or narrow, always proved a hindrance to the work, and often a dangerous ornament, too, for once in a while an enraged cow would take offense at the frock or else step on it and upset the milk pail and the milk at the same time. Finally the management adopted the dairy-maid costume. Its design is after those of the "advanced" bicycle and fencing costumes for women.

The costume is of blue and white striped linen for summer wear and of flannel in similar colors for winter. The girls wear no corsets and the modern hygienic principle of combining warmth with the smallest possible weight in woman's dress is well exemplified. Nothing hinders the free use of their arms and legs. They may sit down, rise or bend over their work without adjusting their clothes and also without experiencing any discomfort. The trousers have a slit about six inches long above the hips. The loose-fitting waistband serves to hold up the stockings by suspenders.

To distinguish between the different grades of employees the milkmaids wear white caps, the pupils white caps with black velvet bands, and the teachers caps with silver lace, for not only the employees, but also the apprentices, among whom are daughters of well-to-do farmers and ladies of the landed nobility, must don the new costume, which is not only becoming but has prevented the accidents common in a dairy.

We wish to state to our patrons that One Minute Cough Cure is a safe and reliable remedy for children troubled with croup, colds, hoarseness and lung troubles. It is pleasant to take, and quickly cures. C. D. Stevens.

ELECTRIC LIGHTS IN THE CAPITOL. Assemblyman Kimball's Idea Seems To Suit The Madison People.

The idea of lighting the capitol and the university with electricity, the bill for which was introduced by Assemblyman Kimball, seems to suit the Madison people. The bill authorizes the governor, secretary of state and attorney general in their discretion, to enter into a contract for the purchase of an electrical apparatus to light the capitol building and park with incandescent and arc lights. "A sum of money necessary" is appropriated, and it is provided that gas may be used when impracticable to use electricity.

"The joint resolution authorizing the introduction of a bill to do this at this late day set forth that the 'air from the use of the gas is bad,' says the State Journal. "Mr. Kimball this morning said that even in 1878 when he was an assemblyman there was complaint both in assembly and senate. The rooms become intolerably hot and members take cold when they go out. He thought the members would concede that the chambers are now badly lighted. Mr. Hall's amendment providing that the bill should cover electric lighting for the university building was adopted.

"The bill of the Madison Gas company for lighting the capitol and executive mansion was for the year ending June, 1893, \$5,782.75; for year ending June, 1894, \$3,898.65 (not a legislative year.) The contract runs until next October."

LOCAL LAWYER'S CASES AT MONROE Several Janesville Firms Have Suits In Green County.

Several cases of interest to Janesville people will be called in the circuit court for Green county at Monroe tomorrow morning. Several attorneys are interested in the following:

A. S. Flagg, (as surviving co-partner, etc.) vs. A. F. Taylor and Mary E. Taylor, (The Travers of the affidavit of attachment.) L. H. Towne and Burr Sprague for plaintiff. A. N. Randall and Smith & Pierce for defendant.

E. W. Babcock vs. A. F. Taylor (The traverse of the affidavit of attachment by special answer) L. H. Towne and Burr Sprague for plaintiff. A. N. Randall and Smith & Pierce for defendant.

William Riley vs. William Rupnow, J. L. Sherron for plaintiff. John Cunningham for defendant.

William G. Wallace vs. the village of Albany. P. J. Clawson for plaintiff, Fethers, Jeffris, Fifield & Matheson for defendant.

The state of Wisconsin vs. Andrew Gothompson, A. S. Douglas for plaintiff. Fethers, Jeffris, Fifield & Matheson for defendant.

The criminal calendar includes the state against William Byrne of this city and three cases against William J. Hahn of Albany, who is well known here.

258 433 RODE ON THE STREET CARS

A Large Army Traveled On the Electric Cars—Charlotte Last Year.

How many Janesville people have an idea of how many people rode on the street cars last year?

Guessing would probably be wild but Superintendent Proudfoot reports the number at 258,438.

This develops some interesting figures. In the first place if all the people who rode had paid the company would have lacked but \$311.29 of paying expenses. These "dead heads" were people who rode on passes, base ball players who rode free to the ball park, and others who contributed to the success of the line. If the 258,438 people who rode had all paid, the receipts would have been \$12921.90 but 4,462 of them were carried free which cut the receipts down. As it was the receipts were \$12,029.51 and the expenses \$13,253.39.

HER GOOD WORK WAS FORGOTTEN

But One Carriage Followed The Hearse That Carried Mrs. Chester's Body.

The remains of Mrs. Dr. Chester, wife of the late Gov. Harvey, one of the prominent, public-spirited women in the history of the state, were taken to Madison Friday night, left at the depot until Saturday morning and then buried in Forest Hill cemetery, with only one carriage to follow the hearse. It contained three friends and relatives of the deceased from Clinton Junction. While the local papers printed considerable as to her death, there seems to have been no formal announcement sent to her Madison friends.

Considerate.

It is related that when Judge Buxton, of North Carolina, made his first appearance at the bar as a young lawyer, he was given charge, by the state's solicitor, of the prosecution of a man who was charged with some misdemeanor.

There was practically no evidence against the man, but Buxton did his best, and was astonished when the jury brought in a verdict of "guilty."

After the trial one of the jurors tapped the young lawyer on the shoulder.

"Buxton," said he, "we didn't think that man was guilty, but we didn't like to discourage a young lawyer by acquitting him!"

JOHN AUSTIN DEAD AT A RIPE OLD AGE

PIONEER SETTLER CALLED HOME YESTERDAY

His Funeral Will Be Held Wednesday, Which Date Would Have Been His Seventy Sixth Birthday Anniversary—Mrs Amanda Thomas at Rest—Death of D. H. Cheney.

John Austin, one of the pioneers of Rock county, died at his home on Milton avenue Sunday afternoon at 1 o'clock, aged seventy-six years. His funeral will take place on Wednesday, March 6, that date being his seventy-sixth birthday anniversary.

D. H. Cheney.

Mrs. E. C. Johnson, of the second ward received the sad news Saturday of the death of her brother, D. H. Cheney, which occurred at his home in Denver, Colorado, Thursday, February 28. Mr. Cheney had been in his usual health. He went home Thursday afternoon and stepped into the back part of the house to start a fire for supper. His wife coming in a few moments later, found him on the floor dead. Heart disease is supposed to have been the cause. He will be remembered to Janesville people as an old resident of the city, and a brother of Will H. Cheney. He will be buried at his old home in Nebraska.

Mrs. Amanda Thomas.

The remains of Mrs. Amanda W. Thomas were buried in Milton this afternoon, funeral services conducted by Rev. Dr. Sabin Halsey being held at the home of her son, George A. Warren, 147 Pearl street, at 1 o'clock. Mrs. Thomas died Saturday evening aged seventy-five years.

RALPH M'GUIRE'S HAND CRUSHED

Thumb Was Taken Off Close to the Palm While Coupling Cars.

Ralph McGuire, the fifteen year old son of Mr. and Mrs. P. A. McGuire, 164 Washington street, suffered the amputation of his right thumb on Saturday afternoon. The young man was coupling cars in the yards of the Chicago, Milwaukee & St. Paul company, when he caught his hand between the bumpers. His thumb was crushed in such a manner that amputation was necessary, the thumb being taken off close up to the hand. Dr. Joe Whiting performed the operation, and young McGuire is doing nicely.

Notwithstanding the severe shock, he walked alone from the company's yards to Dr. Whiting's office, and at first undertook to have the thumb amputated without the aid of anesthetics but when the doctor commenced working he weakened, and chloroform was administered.

Young McGuire is a pupil in the high school, and is employed sometimes out of school hours in the coal and wood office of his father. Occasionally he visited the switch yards and made himself useful, and was quite a favorite among the employees of the yards.

The Keystone of the Arch

In the edifice of health is vigor, which means not merely muscular energy but an active discharge of the various functions of the body such as digestion, secretion of the bile, the action of the bowels, the circulation of the blood. Nothing more actively and thoroughly contributes to the united performance of these functions than the renowned tonic and regulator, Hostetter's Stomach Bitters. The result of its use is a speedy gain in strength, together with the agreeable consciousness that the tenure of life is being strengthened—that one is lying up a store of vitality against the unavoidable draughts which old age makes upon the system. The trying influence of the Bitters contribute a reliable safeguard against malaria, rheumatism and kidney trouble. Appetite and sleep improve through its use, and the system is freed from the effects of cold and damp.

THIS DAY IN HISTORY

1748—Casimir Pulaski, American Revolutionary soldier, born in Poland; died of battle wounds near Savannah 1779.
 1774—Joseph Hamilton Davies, lawyer and soldier, born in Bedford county, Va.; killed at Tippecanoe Nov. 7, 1811.
 1788—The constitution of the United States went into effect nominally, but government was not fully organized until April 30. The government of the American colonies which formed the United States was revolutionary from 1776 to 1781, when articles of confederation took effect. The confederacy having been found weak in the lack of central power, the constitution was devised providing for an executive and two houses of congress and substituting for the confederacy a federal republic.
 1863—Thomas Starr King, Unitarian preacher and most eloquent man of his time, died in San Francisco, born 1824.
 1883—Alexander H. Stephens, vice president of the Confederacy, died at Atlanta; born 1812.
 1888—Amos Bronson Alcott, noted American author and philosopher, died in Boston born in Walscott, Conn., 1798.
 1892—Noah Porter, educator and ex-president of Yale college, died at New Haven; born in Farmington, Conn., 1811.
 1894—James Montgomery Bailey, the "Danbury News Man," humorist, author and editor, died at Danbury, Conn.; born 1811.

BUSINESS AND POLITICS.

The popular notion prevails with a great many good business men that business is business and politics is not worthy of serious attention.

"Let men have the offices who want them, both parties are corrupt," and it is a matter of but little consequence, which one is in the ascendancy," is a favorite expression with a great many people who profess to be practical, and who are level headed in business, and the every day affairs of life.

This sort of indifference to the most vital question of national prosperity has existed during the past few years. The large class of voters known as "independents"; men who follow the teachings of the late George William Curtis, as promulgated through the columns of Harper's Weekly, teaching so pernicious that it resulted in the weakening, and finally the defeat, of the republican party in 1892.

These men whose judgment was sound on questions of business and finance, were led to believe that the republican party was so corrupt, and its financial policy so unsound that a change was not only desirable, but absolutely necessary to the perpetuity of good government.

That a mistake was made was evident in the elections of 1894 when thirty states presented a solid front with overwhelming majorities for the party that but two years before had been discarded as having outlived its usefulness. The political lessons of the past two years should take deep root, and inspire party loyalty for many years to come.

A conservative estimate places the financial loss to the wealth of the country at \$6,000,000,000, since the democratic party assumed the reins of government, more than half of this enormous shrinkage comes upon the people who can ill afford to stand it, and means to them not only loss from enforced idleness but the double loss of opportunity to earn an honest living. The day has passed when any man can afford to say "I take no interest in politics."

National prosperity is vital to individual prosperity. When the nation thrives, and all the avenues of business are filled with activity, the pulse of national life permeates every nook and corner with a healthy, vigorous throb, and the channels of trade, and industry of every kind respond. Prosperity follows as a natural result.

The two great parties have been on trial. One for thirty years of varied and hard experience, guiding the ship of state through the dark days of rebellion, and the troublesome perils of reconstruction, preserving the honor and integrity of the nation, and bringing it out into the clear sunlight of a better civilization.

The other, after two years of attempted government resigns the trust, under the pressure of popular indignation and general dissatisfaction. It bequeaths to the country a debt of \$150,000,000 and the memory of ruin throughout the length and breadth of the land. "Tried and found wanting" is a fitting epitaph for retiring democracy.

Business and politics can not well be divorced as the experience of the past two years very clearly demonstrates.

The Gazette thoroughly believes in party loyalty, not only in state and national affairs, but, so long as the lines are closely drawn, in municipal affairs as well. The republican party will place in nomination this spring a class of men that every republican in the city should feel in honor bound to support. "Principle not preference" should be the motto of every republican and especially of every voter.

man as he assumes the responsibilities of citizenship. It is better to be allied to either one of the two prominent parties, and infinitely better to join the ranks of the republican party than to be drifting. The man without a party, fails because of lack of opportunity to do justice to himself, and his influence that might be exerted for good government is apt to be scattered and wasted.

When the primaries are called let every republican in the city feel that he is individually responsible for the men that are nominated and the result will be a strong ticket that will command support.

The farmers of Rock county would do well to carefully consider recent statistics published in regard to the potato crop. In 1894 the United States imported 2,200,000 bushels at an expense of \$1,200,000 and the year before 4,000,000 bushels at an expense of nearly \$2,000,000.

Every bushel of potatoes used in this country should be raised at home. The crop is certainly a profitable one. The average yield for 1894 was 62 bushels per acre and the average value 53 cents a bushel or about \$33 per acre as against an average value of \$6.50 for the wheat crop.

Ten acres of potatoes on the right kind of soil, properly cultivated, is better than ten acres of tobacco one year with another.

Senator Stewart of Nevada undertook to handicap the International silver commission by a resolution instructing the delegation to insist on a 16 to 1 basis. The commission might better stay at home and save the country the \$100,000 expense money appropriated for the trip.

Superstition and ignorance have contributed largely to the defeat of China, by a nation only one-tenth the size. A nation that has existed since the flood, and that prides itself on having less than one hundred miles of railroad deserves defeat.

TO-DAY'S TERSE TOWN TALES

It is said by hundreds that the lot of tinware Lowell has cannot be made as cheap as he is selling it. He struck a snap when he bought it and you are striking just as much of a snap when you buy. Fine tin slop pails only 28 cents, any one will tell you they cost 85 cents regularly; galvanized buckets, the best, only 12 cents each; dish rag washers always sell for ten cents, now 2 cents; great large dish pans 11 cents each. It's a picnic to have a dollar to spend there. Lowell Hardware Co.

"Uncle Josh Spruceby" was delivered before a good sized audience, not a few of the auditors being members of the dairyman's convention. As a realistic play it is a success. The situations are stirring, the saw mill and muskling bee scenes in particular being fine bits of realism. The company has been well selected and as a consequence, the parts were well portrayed. As a picture of homely life in New England "Uncle Josh" is a success." Friday night at the Myers Grand.

"HAVING suffered long from a sore throat, I was prevailed upon to try Dr. Hale's Cough Cordial, and received more benefit from it than any other medicine I have ever used. I have since used it in my family, and have recommended it to others with great success."—Dr. C. L. Martin, Janesville, Wis. For sale by Prentice & Evenson.

The washing machines for \$1.90 are as good as can be found any place, and at this day and age sell for \$3.50 regularly. We are putting in along with the rest of the stuff at given away prices. Lowell Hardware Co.

THE ladies hand turned shoes are going fast and we will sell till they are gone. Better not let this pass. They are \$3.50 and \$4.00 goods. Lloyd & Son.

CUTICREAM, fragrant, elegant, matchless, a harmless and healing application for the skin. Will make some two persons \$15 in gold April 1. Prentice & Evenson.

WHY?

QUESTIONS WOMEN ASK

Here Answered with Good Sound Reason.

(SPECIAL TO OUR LADY READERS.)

Why do people say that Lydia E. Pinkham's treatment, especially her Vegetable Compound, effects cures beyond the physician's skill?

Because of the fact that a woman best understands a woman's ills. What man ever suffered a single pang like unto woman? Man works from theory only.

Why do tens of thousands of women write to Mrs. Pinkham at Lynn, Mass., telling their most secret thoughts?

Because they know that their letters go straight to the hands of a woman, are opened, read, and answered by a woman, who as a woman has made woman's ills a life study, and because she never fails them, and cures cases which the doctor cannot.

The lady who asks that the following letter be published, gives concisely the uniform expression of gratitude contained in thousands of other letters in Mrs. Pinkham's possession.

"For eight years I suffered with neuralgia of the womb, backache, severe pains all through my body, and kidney trouble. None of the doctors did me any good. I took twelve bottles of your Vegetable Compound, and cannot thank you enough for the relief I found."

"I am now well cured of all those pains. I should advise every woman to take Lydia E. Pinkham's Vegetable Compound who has any female trouble. I had a friend who was to go under an operation. I advised her first to try the Compound. She did, and is now so much better and stronger she has given up all thoughts of the operation."—MRS. M. WILDE, 2137 Park St., Tioga, Pa.

A DAY'S HAPPENINGS ON LOCAL STREETS

THE COMMON COUNCIL WILL MEET TONIGHT.

No Business of Great Importance Will Come Before the Meeting But Charter Amendments May Be Referred to a Committee to Keep Within the Law.

The common council this evening will take up the ordinance in relation to the adoption of the uniform charter, but probably no definite action will follow. Several important amendments are now pending in the legislature, besides a number of bills which relate to municipal charters, which, if they become laws, may obviate the necessity of adopting the general charter. However, the council may refer the matter to a committee for the purpose of keeping the ordinance alive, and prevent any question in regard to future action.

HARRY BROWN and O. D. Lincoln left on the 7:15 this morning to pack up the stock of boots and shoes they bought there Saturday. Although they were offered \$1500 more for the stock and leave they will not take it as they never deceive their customers and when they offer the carcass for sale it contains the meat.

It's not hard to get a fair price and a small profit for good goods, but old out of date stuff is dear at given away prices. Fortunately we have none of this kind of goods 150 dozen ladies seamless hose, fast black and stainless tan high spliced heel 12 1/2 cents a pair. Such hose sell at 19 cents a pair in every other store in the town. Bort, Bailey & Co.

BIG "BLUFF" MADE BY "GREASY SAL"

HOBOES TO RESCUE THEIR COMRADES FROM JAIL.

Turnkey North Is To Be Chloroformed and Many Other Rash Things Are To Be Done—Goods Thrown From The Train at Tiffany—"The Willow Gang" Discouraged.

When the sheriff brought "Greasy Sal" up from Beloit on the charge of helping to hide the goods alleged to have been stolen from a Chicago & Northwestern car by Flynn, Crowley, Franklin with Helroth as their Chicago agent, that distinguished lady was carrying a very large "bluff" with her.

"The gentlemen of our set in Beloit are coming up to rescue the gentlemen that you have locked up" was about the way she stated it to Turnkey North. "They are going to rip the bars off or anything else that is necessary beside hitting you on the head with a club or giving you chloroform."

Turnkey North assured her that they had cells to accommodate all the men who wanted to come and promised to stand very still while he was being clubbed or chloroformed so as not to interfere with their plans.

The goods alleged to have been taken by the gang were thrown from the car as the train whizzed through Tiffany. This fact was established by Sheriff Appleby and Detective Valley, who found a portion of the goods at that point. As the result of their work, half a dozen boxes are now stored at the Janesville jail to be used as evidence in the trial.

The officer had thought that the goods were tossed out somewhere between Janesville and Evansville. Tiffany people noticed that there were a number of boxes, etc., scattered along the track. They notified the sheriff and on the same morning a Shopiere man told Officer Hogan. The sheriff at once left for Shopiere and found the plunder.

Sleigh Tracks Seen.

Some boxes had been broken by the fall on the hard ground. One, containing confectionery, was broken open and licorice and candy scattered along the track. A quantity of books, pencils, packages of playing cards, pencil sharpeners and other stationery supplies were found, and the tracks of the bob sleigh that was used to take the goods to Beloit were plainly to be seen. The men had stopped in a shed, built a fire and warmed themselves before starting out, as the night was a very cold one.

The men were brought into the municipal court this morning, and by consent of the parties the case was adjourned until March 9.

The gang who have been making "Willows" and the houses across the line their headquarters are very much stirred up over the effective work done by Sheriff Appleby and Detective Valley as they see that they must sail very close to the wind in the future. It is said that every time the sheriff visits his former home that a large percentage of the population have business across the line as long as he is in sight. The gaiety in the resorts does not cease. There are sounds of revelry by night with an occasional fight to break the monotony. They had a row and a free-for-all fight at the "Higgins place" over the line Saturday night which lasted until Matthew Whalen of Beloit was seriously stabbed.

Some Interesting Facts.

PIPES FULL OF GAS WENT OFF "BANG"

ACCIDENT AT THE GAS WORKS SUNDAY EVENING.

Purifying Seal Became Clogged Forcing the Fluid Back Into the Blow Pipes and When the Valve Was Open the Gas Was Sent Back Into the Retorts.

A terrific explosion occurred at the Janesville gas works last evening, which came near leaving the city in darkness and ruining the plant. The explosion occurred at 7:45 o'clock and was heard throughout the entire city. Nearly every pane of glass in the boiler room, in which the cupolas are located was broken, and the entire window was demolished. Inside this room was a large pile of brick and mortar dust which had been blown from the covering of a blow pipe, and which partly served as a foundation for one of the cupolas or oil retorts. The coolness and presence of mind of Fred W. Henrich, foreman of the night hands, prevented more serious results.

"I realized that there would be an explosion," explained Mr. Henrich, "and had all the doors open. Then I raised the valve, and the explosion resulted. I did not expect quite as much trouble, but realized that something more than usual would take place."

Mr. Henrich then explained that one of the purifying seals had clogged and that the gas had worked back into the blow pipes. These pipes are about six inches in diameter and are made of galvanized iron. These convey the air blast from the fan to the retort, and are buried about eighteen inches under the floor. It appears that these pipes were filled with gas, and when the valve was raised and fan started the gas was blown into the retort fires, and the explosion followed. The explosion had force enough to raise the entire floor above the blow pipes, besides breaking several water and steam pipes, and came near demolishing the foundation of one of the oil retorts. Fortunately no one was injured, and the damage was so located that but very little inconvenience resulted.

Hohenlohe Lands Bismarck.

Berlin, March 4.—Chancellor von Hohenlohe attended a students' "commemorative" last evening, given in honor of Prince Bismarck. The chancellor made a speech, in which he said he was very glad to join in honoring the man whom he revered as the greatest statesman of the century. He was also proud to say that Prince Bismarck was his friend. He urged the students to remain steadfast in their patriotism, preserve the joyful and courageous spirit of youth, and hold fast to the ideals of the fatherland.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity is \$500 and It is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.
It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

CURES OTHERS

For over a quarter of a century, Doctor Pierce's Golden Medical Discovery has been effecting cures of Bronchial, Throat and Lung affections. Weak Lung, Bleeding from Lungs, Bronchitis, Asthma, all lingering Coughs, Consumption, or Lung Scrofula and kindred maladies, are cured by it.

REDUCED TO A SKELETON.

Mrs. MIRA MILLA, of Sardinia, Big Stone Co., Minn., writes: "One year ago I was given up by my family physician and friends; all said I must die. My lungs were badly affected, and body reduced to a skeleton. My people commenced to give me your 'Medical Discovery' and I soon began to mend. It was not long before I became well enough to take charge of my household duties again. I owe my recovery to Dr. Pierce's Golden Medical Discovery."

WHY NOT YOU?

FOR SALE.

After four years of very satisfactory experience in real estate transactions, in Missouri, and having, during that time, sold \$236,800 worth of well IMPROVED FARMS in northeast Missouri, I am prepared to say to you, that no state in the whole union presents the opportunities to the farmer that Missouri does, that no other state combines so many advantages to the farmer, in no other state can you get rich, well improved farms, in thickly settled locations with lands as good as any in Wisconsin at the prices and upon the terms which I now offer you; her rich soil, mild and equable climate, sure crops, abundance of timber, pure water, nutritious grasses, beautiful blue grass pastures, and above all, her vast crops of all kinds of delicious fruits are among her numerous advantages to the farmer. Her exhibits at the World's Fair, in 1893, proved that no country leads Missouri in the production of fine fruit, not even France or Spain with their vast vineyards have any advantage over Missouri in fruit growing. I have in northeast Missouri, rich, well improved farms, near railroads, for sale: 1330 acres at \$35 per acre; 465 acres at \$30; 1172 at \$35; 460 acres at \$2; 540 acres at \$35, 800 acres with \$11,000 in buildings at \$35. Can take a small farm in Wisconsin or Illinois as part pay on any of these.

USES OF VELVET.

Revers, Shoulder Pieces, Blouses and Gowns Made of It.

Velvet continues to be greatly in favor in Paris, both for trimming and for entire costumes. These costumes are of sapphire, brown or brown for daylight and out of door wear, more lively shades being employed for indoor toilets.

Blouses of velvet are at present in vogue. They are of clear colors and are worn with a black skirt. Cherry petunia and orange are among the tints most liked.

Velvet shoulder pieces are the fashion of the hour. They are of various shapes, some of them resting flat over the shoulders, others curved, still others full, and trimmed in all sorts of ways.

The fashion of draping the revers of dresses and the silk or satin capes of outdoor coats or jackets is on the increase. The fitness that was once a distinctive feature of the latter and the stiffness that was equally characteristic have given way to a number of multiplied folds, which might be insignificant were it not for the costly fur or passementerie that borders them. Short pieces of valuable old lace are converted into collars by being lined

DINNER TOILET.

with satin, white, black or colored, and edged with fur, finishing velvet or cloth capes. The application of velvet revers to garments of ordinary cloth is an innovation that seems to have met the public taste. Down the fronts of some of the plainest cloth jackets are full revers of violet, green or crimson velvet, narrowing as they descend and richly bordered with fur. On evening mantles of silk, satin, brocade or velvet these revers are sometimes in velvet of rose petal pink, turquoise blue or springlike leaf green, edged with fur and made all the more effective by the glittering jet fringes that are hung from the shoulders and the waist.

The gown shown in the sketch is of ruby velvet and white satin. The velvet skirt opens on the right side over a quille of white embroidered satin, the sides of the velvet skirt being held together near the top by an immense black velvet bow. The quille is continued at the foot in a strip of embroidered satin which borders the bottom of the skirt, edged on each side by a band of marten, bands of fur also edging the open sides of the velvet skirt. The velvet bodice has a plain back, and a full front cut square to show a plastron of embroidered satin and bordered with fur. The large elbow sleeves are of satin, as is the draped belt.

REIGNING FANCIES.

Perforated Materials Are Popular—Laces Are Embroidered in Colored Silks.

Cloth perforated in patterns, to be made up over a contrasting color, continues to be fashionable, dark green over scarlet being a favorite combination. Like cut embroidery, the designs are limitless. The star pattern has had a great run. Velvetene is treated in the same manner, as are also thick satins and moires. Capes are fashionable made of this stamped out design and very effective, and they are lightened with guipure or thick Maltese lace. The fashion of embroidering such laces is becoming general, but the taste is doubtful. On the lighter makes of lace colored and raised embroidery is rich and effective. Some executed in silk and jewels is extremely ornate. All colors in light lace can now be had, and for ball dresses it is most decorative. It makes ideal drapery for low bodices, cloudy in aesthetic hues and smart in brighter shades. A flounce of colored lace on a silk skirt makes a pretty finish for a young

BODICE FOR DEMITOILET.

girl's dance frock. There never was such a demand for lace as this season. It enters into almost every detail of toilet, from lingerie to the gala gown.

A soft, mossy shade of green is the fashionable color, and fur is the trimming par excellence. The spring sales of fur will soon begin, and as this winter will scarcely suffice to exhaust the passion for this trimming it might be wise to invest in a few bargains with an eye to next year. The very seams of dresses are outlined with narrow strips of fur, an inch in width, cutting up into enough to serve for four outlines. Jackets and coats for morning wear and capes for afternoon are greatly ornamented. Often as many as six different fabrics are employed in the making of a cape.

A novel bodice for demitoilet is shown in the sketch. It is made of light silk, plainly fitted. The balloon elbow sleeves end in a frill, while the front of the bodice opens over a half low shirred vest. Large covers of dark velvet frame the vest, while a high, flaring velvet collar serves as a background for the neck. A velvet belt and a fancy collar complete the effect.

That's the Way It Figures.

Will be here, opened and ready for you
Thursday morning, almost

\$14,000 Worth Fine shoes.

Of course old Calf Skin & Co., don't like it, why should they? When we get a stock we bring the entire thing, meat and all to our customers. Don't have all the meat "cleaned off" in another town and bring the Carcass to Janesville and try to "work on to" an unsuspecting public.

Call us what you will, 5th Ave. Jews, Fakirs, Dagos or any Other name. We are The People's Benefactors, and commencing with next Thursday morning will sell the people Of Janesville SHOES at

33¹/₃c On The Dollar.

WHO DARES TO MEET US?

DON'T BUY UNTIL YOU SEE.
